Capacity evidence

Do not add these claims together. IT load, facility power, grid connection and unspecified power are different measurements. Cumulative and incremental scopes remain separate.

Capacity unknown. No supported capacity statement is recorded.

Development timeline

No dated milestones established.

Disclosed specifications

Research clarification · 2026-09-11: No defensible BK1 MW disclosure found. Cabinet count and construction capex must not be read as power capacity.

Source-backed research proposal; publication requires review. [2]

Research gaps

- Independent block-level coordinate verification
- Commissioned and occupied IT load by phase
- Legal owner and ownership history
- Latest property photo and reuse rights
- Reconciled capacity accounting and latest actual milestone dates
- Whether this individually identified site exceeds 5 MW; capacity intentionally left unknown
