STT Bangkok 2

24 MW • IT load

Reported design capacity; energized and occupied load not established

Development status: planned

Current design capacity; future Bangkok 2 opening not established.

Last researched: 2026-09-11 | Last verified: Not independently verified

Tracked dataset only. Unknown values are not zero. Evidence dates and measurement definitions must be considered when comparing sites.

Capture and original image publication dates not independently established; retrieval/upload dates are not capture dates. Selected from sources checked 2026-09-11 for identity and unobstructed property view; latest capture date cannot be established.

Site profile

Field	Published information
Operator	ST Telemedia Global Data Centres [1]
Owner	Unknown
Business model	unknown
Scale	unknown
Country	Thailand [1]
State / region	Bangkok [1]
Metro area	Greater Bangkok [1]
City / locality	Bangkok [1]
Address	Unknown
Coordinates	13.757295, 100.632435 · approximate precision. PeeringDB facility geocode; independently verified block/building placement remains pending.
Parent	Not assigned

Capacity evidence

Do not add these claims together. IT load, facility power, grid connection and unspecified power are different measurements. Cumulative and incremental scopes remain separate.

Measurement	Development scope	Evidence / accounting
24 MW IT load	Reported design capacity; energized and occupied load not established planned · cumulative	[1] reported · 2026-09-11 Excluded from totals. Research retrieval date, not a commissioning or measurement date. Design/full-build capacity is not evidence that all MW are commissioned. Excluded from sums pending capacity and hierarchy review. Current design capacity; future Bangkok 2 opening not established.

Development timeline

No dated milestones established.

Disclosed specifications

No additional specifications established.

Research gaps

- Verified block-level property coordinates
- Latest unobstructed property photo and reuse rights
- Legal property ownership and ownership history
- Actual energized/occupied power and phased commissioning breakdown
- Private tenants and undisclosed technical details
- Verified full street address
- Independent block-level coordinate confirmation; approving a candidate does not prove survey accuracy
