

Indonesia / Facility / Published revision 3

Aslan Energy JIEP Jakarta project

40 MW · Unspecified power

Reported design/development capacity; delivered share unconfirmed

Development status: planned

Do not confuse separate 120 MW battery-storage equipment with facility/IT power; construction completion unconfirmed.

Last researched: 2026-09-11 | Last verified: Not independently verified

Tracked dataset only. Unknown values are not zero. Evidence dates and measurement definitions must be considered when comparing sites.

Site photographs

No approved property photo available.

Site profile

Field	Published information
Operator	Aslan Energy Capital [1] [2]
Owner	Unknown
Business model	unknown
Scale	unknown
Country	Indonesia [1]
State / region	DKI Jakarta [1]
Metro area	Greater Jakarta [1]
City / locality	Jakarta [1]
Address	Unknown
Coordinates	Unknown · unknown precision. Exact property coordinates not established; no city centroid substituted.
Parent	Not assigned

Capacity evidence

Do not add these claims together. IT load, facility power, grid connection and unspecified power are different measurements. Cumulative and incremental scopes remain separate.

Measurement	Development scope	Evidence / accounting
40 MW Unspecified power	Reported design/development capacity; delivered share unconfirmed planned · cumulative	[1] reported · 2026-09-11 Excluded from totals. Research retrieval date, not measurement/commissioning date. Excluded from sums pending capacity and hierarchy reconciliation. Do not confuse separate 120 MW battery-storage equipment with facility/IT power; construction completion unconfirmed.

Development timeline

No dated milestones established.

Disclosed specifications

Research clarification · 2026-09-11: Primary release corroborates developer and 40 MW project. Battery energy is 120 MWh, not an additional 120 MW of facility capacity.

Source-backed research proposal; publication requires review. [2]

Research gaps

- Independent block-level coordinate verification
- Commissioned and occupied IT load by phase
- Legal owner and ownership history
- Latest property photo and reuse rights
- Reconciled capacity accounting and latest actual milestone dates
