# AirTrunk JHB3

## ≥138 MW · Unspecified power

Reported design capacity; energized and occupied load not established

Also known as: JHB3

Development status: planned

JHB3 campus advertised at 138+ MW.

Last researched: 2026-09-11 | Last verified: Not independently verified

Tracked dataset only. Unknown values are not zero. Evidence dates and measurement definitions must be considered when comparing sites.

## Site photographs

## Capacity evidence

Do not add these claims together. IT load, facility power, grid connection and unspecified power are different measurements. Cumulative and incremental scopes remain separate.

| Measurement                  | Development scope                                                                             | Evidence / accounting                                                                                                                                                                                                                                   |
|------------------------------|-----------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| ≥138 MW<br>Unspecified power | Reported design capacity; energized and occupied load not established<br>planned · cumulative | [1] reported · 2026-09-11<br>Excluded from totals. Research retrieval date, not a commissioning or measurement date. Design/full-build capacity is not evidence that all MW are commissioned. Excluded from sums pending capacity and hierarchy review. |

## Development timeline

No dated milestones established.

## Disclosed specifications

No additional specifications established.

## Research gaps

- Verified block-level property coordinates
- Latest unobstructed property photo and reuse rights
- Legal property ownership and ownership history
- Actual energized/occupied power and phased commissioning breakdown
- Private tenants and undisclosed technical details
- Individual building capacities and phase-to-building allocation; campus total must not be assigned to each building
- Verified full street address
