Princeton Digital Group JC4 campus

[Princeton Digital Group](#)

Unknown MW • Total facility power not established

See capacity evidence for reported claims.

Development status: under construction

PDG's JC4 hyperscale campus in GLIC, Bekasi, is under construction. Advertised 240 MW is planned campus capacity, not demonstrated operational IT load. JC3 is a separate nearby campus; shared infrastructure does not establish a single asset.

Last researched: 2026-10-10 | Last verified: Not independently verified

Tracked dataset only. Unknown values are not zero. Evidence dates and measurement definitions must be considered when comparing sites.

Site profile

Field	Published information
Operator	Princeton Digital Group [6] [9]
Owner	Unknown
Business model	unknown
Scale	hyperscale [6]
Country	Indonesia [6] [9]
State / region	West Java [8]
Metro area	Greater Jakarta [6]
City / locality	Cikarang [9]
Address	GIIC Kota Deltamas, Central Cikarang, Bekasi [8] [13] [9]
Coordinates	-6.3846522, 107.1929459 · approximate precision. Named Google Maps site POI matched to facility identity and locality; approximate property location, not independently verified building boundary or entrance.
Parent	Not assigned

Capacity evidence

Do not add these claims together. IT load, facility power, grid connection and unspecified power are different measurements. Cumulative and incremental scopes remain separate.

Measurement	Development scope	Evidence / accounting
240 MW Unspecified power	Advertised full-build/design capacity; commissioned share unconfirmed planned · cumulative	[1] reported · 2026-09-11 Excluded from totals. Retrieval date, not measurement date. Design ceiling is not proof of delivered/occupied load. Excluded from aggregates pending reconciliation. Powered-land expansion; do not represent 240 MW as operational IT load.
240 MW Unspecified power	Ultimate JC4 campus; commissioned share unconfirmed planned · cumulative	[6] reported · 2026-04-30 Excluded from totals. Announcement date. Planned capacity backed by reported power allocation; electrical basis unspecified. Overlaps historical capacity-1; not additional capacity.

Development timeline

2026-04-30 · announcement · Site acquisition and construction announced

PDG reported land secured and construction commenced; acquisition closing and physical start dates unspecified. [6]

2026-06-30 · actual · JC4 construction launch / groundbreaking

Government reports the June 30 event. This ceremony does not supersede earlier construction commencement evidence. [8]

Disclosed specifications

Campus land area: 106,217 m²

Operator figure; DCD and Data Center Map give 106,215 m². Retain minor discrepancy; not established gross floor area. [6]

Planned building configuration: Four buildings, advertised 60 MW each

Components of the campus total; delivery sequence and electrical basis unspecified. [6]

Campus relationship and connectivity: Approximately 1.7 km from JC3; shared power and connectivity infrastructure

Separate campuses; carrier names, routes and infrastructure energization unconfirmed. [7]

Cooling and workload design: High-density computing and advanced cooling

Operator design description; rack density, cooling topology and PUE/WUE undisclosed. [6]

Corporate capital relationships: Warburg Pincus, Ontario Teachers' Pension Plan, Mubadala and Stonepeak

July 2025 release says Warburg remains largest shareholder and announces USD 1.3 billion Stonepeak preferred-equity agreement. No JC4 ownership percentages or property title established. [11]

Financing scope distinction: May 2026 financing announcement concerns JC3

Do not assign the approximately USD 856 million headline to JC4; the approximately USD 400 million accordion was still in progress. [12]

Supplier-reported equipment lead: Diesel generation, chilled water and photovoltaic facilities

HPSI case page also names Shangchai engines and Wuxi Faraday alternators. Uncorroborated project claims; installation, scope and commissioning unconfirmed. [13]

Research gaps

- Existing approximate Maps pin retained from approved evidence; live Maps access failed and block-level property position remains uncorroborated.
- Legal project company, registered landowner, seller and ownership stakes remain undisclosed in inspected sources.

- Capacity electrical basis, energized grid supply, commissioned IT load and building delivery sequence remain unresolved.
- No newly inspected, identity-corroborated exterior or aerial photograph suitable for import; capture dates and reproduction rights unresolved.
- Research incomplete: original permits, utility agreement and primary completion schedule remain to be located.
