# NEXTDC KL1 Kuala Lumpur

## 65 MW • IT load

Advertised full-build/design capacity; commissioned share unconfirmed

Development status: unknown

Current operator design figure. Delivery/commissioned share needs confirmation; DCM street 51A/225 differs from operator 51A/229.

Last researched: 2026-09-11 | Last verified: Not independently verified

Tracked dataset only. Unknown values are not zero. Evidence dates and measurement definitions must be considered when comparing sites.

## Site photographs

No approved property photo available.

## Capacity evidence

Do not add these claims together. IT load, facility power, grid connection and unspecified power are different measurements. Cumulative and incremental scopes remain separate.

| Measurement      | Development scope                                                                                | Evidence / accounting                                                                                                                                                                                                                                                                                                               |
|------------------|--------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 65 MW<br>IT load | Advertised full-build/design capacity;<br>commissioned share unconfirmed<br>unknown · cumulative | [1] reported · 2026-09-11<br>Excluded from totals. Retrieval date, not measurement date. Design ceiling is not proof of delivered/occupied load. Excluded from aggregates pending reconciliation. Current operator design figure. Delivery/commissioned share needs confirmation; DCM street 51A/225 differs from operator 51A/229. |

## Development timeline

No dated milestones established.

## Disclosed specifications

No additional specifications established.

## Research gaps

- Independently verified block-level coordinates
- Latest property photo and reuse rights
- Legal owner and ownership history
- Commissioned MW versus design capacity
- Facility/phase capacity accounting reconciliation
