# Google Elmina data center

## Google

### Unknown MW · Total facility power not established

See capacity evidence for reported claims.

Development status: under construction

Google development at Elmina Business Park. A 2024 industry report attributes 80 MW to the initial Gamuda/Pearl construction project; the measurement basis and current full-campus MW remain unverified.

Last researched: 2026-09-11 | Last verified: Not independently verified

Tracked dataset only. Unknown values are not zero. Evidence dates and measurement definitions must be considered when comparing sites.

| Country         | Malaysia [1]                                                                                           |
| State / region  | Selangor [1]                                                                                           |
| Metro area      | Greater Kuala Lumpur [1]                                                                               |
| City / locality | Unknown                                                                                                |
| Address         | Unknown                                                                                                |
| Coordinates     | Unknown · unknown precision. Exact property coordinates not established; no city centroid substituted. |
| Parent          | Not assigned                                                                                           |

## Capacity evidence

Do not add these claims together. IT load, facility power, grid connection and unspecified power are different measurements. Cumulative and incremental scopes remain separate.

| Measurement                | Development scope                                                                                            | Evidence / accounting                                                                                                                                                                                      |
|----------------------------|--------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 80 MW<br>Unspecified power | Initial Elmina construction project;<br>current campus total not established<br>under construction · unclear | [2] reported · 2024-05-27<br>Excluded from totals. Secondary report tied to<br>Gamuda/SDP/Pearl contracts; power basis unclassified.<br>Not current operational MW or the total of later Elmina<br>phases. |

## Development timeline

No dated milestones established.

## Disclosed specifications

**Research clarification · 2026-09-11: A sourced historical 80 MW construction-project claim is available. Current total IT load remains undisclosed; neither investment cost nor rack count was converted into MW.**

Source-backed research proposal; publication requires review. [2]

## Research gaps

- Independent block-level coordinate verification
- Commissioned and occupied IT load by phase
- Legal owner and ownership history
- Latest property photo and reuse rights
- Reconciled capacity accounting and latest actual milestone dates
- Current commissioned whole-site capacity and reconciliation of historical/component claims
