

Thailand / Facility / Published revision 2

NTT Bangkok 3

12 MW • IT load

Reported design capacity; energized and occupied load not established

Also known as: BKK3

Development status: unknown

Latest actual RFS unconfirmed. Current English page separately advertises 14 MW without establishing the same power definition.

Last researched: 2026-09-11 | Last verified: Not independently verified

Tracked dataset only. Unknown values are not zero. Evidence dates and measurement definitions must be considered when comparing sites.

Capture and original image publication dates not independently established; retrieval/upload dates are not capture dates. Selected from sources checked 2026-09-11 for identity and unobstructed property view; latest capture date cannot be established.

Site profile

Field	Published information
Operator	NTT DATA [1]
Owner	Unknown
Business model	unknown
Scale	unknown
Country	Thailand [1]
State / region	Chon Buri [1]
Metro area	Chon Buri [1]
City / locality	Chon Buri [1]
Address	Amata City Chonburi Industrial Estate [1]
Coordinates	Unknown · unknown precision. Property coordinates have not been verified.
Parent	Not assigned

Capacity evidence

Do not add these claims together. IT load, facility power, grid connection and unspecified power are different measurements. Cumulative and incremental scopes remain separate.

Measurement	Development scope	Evidence / accounting
12 MW IT load	Reported design capacity; energized and occupied load not established unknown · cumulative	[1] reported · 2026-09-11 Excluded from totals. Research retrieval date, not a commissioning or measurement date. Design/full-build capacity is not evidence that all MW are commissioned. Excluded from sums pending capacity and hierarchy review. Latest actual RFS unconfirmed. Current English page separately advertises 14 MW without establishing the same power definition.
14 MW Unspecified power	Current full-build power claim; definition differs or remains unclear planned · cumulative	[2] reported · 2026-09-11 Excluded from totals. Research retrieval date, not a commissioning or measurement date. Design/full-build capacity is not evidence that all MW are commissioned. Excluded from sums pending capacity and hierarchy review. Latest actual RFS unconfirmed. Current English page separately advertises 14 MW without establishing the same power definition.

Development timeline

No dated milestones established.

Disclosed specifications

No additional specifications established.

Research gaps

- Verified block-level property coordinates
- Latest unobstructed property photo and reuse rights
- Legal property ownership and ownership history
- Actual energized/occupied power and phased commissioning breakdown
- Private tenants and undisclosed technical details
