

Indonesia / Facility / Published revision 3

DCI JK2

7 MW • IT load

Reported design capacity; energized and occupied load not established

Also known as: DCI Indonesia JK2

Development status: operational

H1 campus building; article migration date is not treated as the original opening date.

Last researched: 2026-09-11 | Last verified: Not independently verified

Tracked dataset only. Unknown values are not zero. Evidence dates and measurement definitions must be considered when comparing sites.

Site photographs

No approved property photo available.

Site profile

Field	Published information
Operator	DCI Indonesia [1]
Owner	Unknown
Business model	unknown
Scale	unknown
Country	Indonesia [1]
State / region	West Java [1]
Metro area	Greater Jakarta [1]
City / locality	Cibitung [1]
Address	Unknown
Coordinates	-6.299731, 107.089244 · area precision. Shared DCI H1 campus reference: PeeringDB repeats this point for several buildings. It does not resolve this building footprint.
Parent	Not assigned

Capacity evidence

Do not add these claims together. IT load, facility power, grid connection and unspecified power are different measurements. Cumulative and incremental scopes remain separate.

Measurement	Development scope	Evidence / accounting
7 MW IT load	Reported design capacity; energized and occupied load not established operational · cumulative	[1] reported · 2026-09-11 Excluded from totals. Research retrieval date, not a commissioning or measurement date. Design/full-build capacity is not evidence that all MW are commissioned. Excluded from sums pending capacity and hierarchy review. H1 campus building; article migration date is not treated as the original opening date.

Development timeline

No dated milestones established.

Disclosed specifications

No additional specifications established.

Research gaps

- Verified block-level property coordinates
- Latest unobstructed property photo and reuse rights
- Legal property ownership and ownership history
- Actual energized/occupied power and phased commissioning breakdown
- Private tenants and undisclosed technical details
- Verified full street address
- Independent block-level coordinate confirmation; approving a candidate does not prove survey accuracy
