

Indonesia / Facility / Published revision 3

STT Jakarta 9

60 MW · IT load

Reported design capacity; energized and occupied load not established

Development status: planned

Individual building design capacity. Campus parent linkage awaits review; no campus total duplicated.

Last researched: 2026-09-11 | Last verified: Not independently verified

Tracked dataset only. Unknown values are not zero. Evidence dates and measurement definitions must be considered when comparing sites.

Site photographs

No approved property photo available.

Site profile

Field	Published information
Operator	ST Telemedia Global Data Centres [1]
Owner	Unknown
Business model	unknown
Scale	unknown
Country	Indonesia [1]
State / region	West Java [1]
Metro area	Greater Jakarta [1]
City / locality	Cikarang [1]
Address	Greenland International Industrial Center, Cikarang, Bekasi [1]
Coordinates	-6.373337, 107.201313 · area precision. Shared STT Jakarta campus reference inferred from the Jakarta 1 geocode and operator campus inventory; this building position is unresolved.
Parent	Not assigned

Capacity evidence

Do not add these claims together. IT load, facility power, grid connection and unspecified power are different measurements. Cumulative and incremental scopes remain separate.

Measurement	Development scope	Evidence / accounting
60 MW IT load	Reported design capacity; energized and occupied load not established planned · cumulative	[1] reported · 2026-09-11 Excluded from totals. Research retrieval date, not a commissioning or measurement date. Design/full-build capacity is not evidence that all MW are commissioned. Excluded from sums pending capacity and hierarchy review. Individual building design capacity. Campus parent linkage awaits review; no campus total duplicated.

Development timeline

No dated milestones established.

Disclosed specifications

No additional specifications established.

Research gaps

- Verified block-level property coordinates
- Latest unobstructed property photo and reuse rights
- Legal property ownership and ownership history
- Actual energized/occupied power and phased commissioning breakdown
- Private tenants and undisclosed technical details
- Independent block-level coordinate confirmation; approving a candidate does not prove survey accuracy
