

Malaysia / Site / Published revision 3

Digital Halo JHB1 campus

150 MW • Grid connection

Contracted grid supply; energized capacity not established

Development status: under construction

150 MW is the TNB electricity supply agreement, not IT load; energization and actual demand unknown.

Last researched: 2026-09-11 | Last verified: Not independently verified

Tracked dataset only. Unknown values are not zero. Evidence dates and measurement definitions must be considered when comparing sites.

Site photographs

No approved property photo available.

Site profile

Field	Published information
Operator	Digital Halo [1] [2]
Owner	Unknown
Business model	unknown
Scale	unknown
Country	Malaysia [1]
State / region	Johor [1]
Metro area	Johor Bahru [1]
City / locality	Iskandar Puteri [1]
Address	Nusa Cemerlang Industrial Park [1]
Coordinates	Unknown · unknown precision. Property coordinate not established; no city centroid substituted.
Parent	Not assigned

Capacity evidence

Do not add these claims together. IT load, facility power, grid connection and unspecified power are different measurements. Cumulative and incremental scopes remain separate.

Measurement	Development scope	Evidence / accounting
150 MW Grid connection	Contracted grid supply; energized capacity not established planned · cumulative	[1] reported · 2026-09-11 Excluded from totals. Retrieval date, not measurement date. Design ceiling is not proof of delivered/occupied load. Excluded from aggregates pending reconciliation. 150 MW is the TNB electricity supply agreement, not IT load; energization and actual demand unknown.

Development timeline

No dated milestones established.

Disclosed specifications

Research clarification · 2026-09-11: Utility corroborates 150 MW electricity supply agreement and Nanda Digital relationship. This is grid capacity, not delivered IT load.

Source-backed research proposal; publication requires review. [2]

Research gaps

- Independently verified block-level coordinates
- Latest property photo and reuse rights
- Legal owner and ownership history
- Commissioned MW versus design capacity
- Facility/phase capacity accounting reconciliation
